Water Splash and Dust
Do Not Hinder The Design

Panasonic Pacific series meets the user's expectations at the highest level with its IP54 protection feature under harsh conditions.

Pacific, which increases safety by taking superior precautions against possible leaks with its patented gasket system, exhibits a user-friendly approach with easy installation.
IP54

New Pacific
Double USB Socket

Safe use with Type-A and Type-C Plug Pacific USB Socket with IP54 Protection.

Connect up to two devices at the same time!

• Thermal resistance from -35°C to 55°C
• IP54 dust and water splash resistant
• Easy assembly
• Robust design

# Technical Specifications

Impermeability
Safe usage with double injection impermeable seals

IP54 Feature
Protection against dust and water splash with IP54 feature

Wide Internal Volume
Wide internal volume for easy cable assembly inside the product

Thermoplastic Exterior Surface
Glass-fibre reinforced thermoplastic material ensuring high resistance to weather conditions, high impact strength and resistance to chemical and thermal environment.

Cover
Easy assembly with double thread thermoplastic screws

Privilege of
dusty and moist places

Palmiye

Moist places enjoy the privilege of elegantly designed, long lasting Palmiye series with IP54 function. Palmiye series meet the expectations for safe use in areas requiring more care and caution. Products of Palmiye series come into prominence with long lasting and durability features and offer decorative choices with white and gray color options.

Decorations that never become old fashioned and elegant designs

White

Gray

Thanks to IP54 function of Palmiye offered with white and gray color options, this series provide resistance to dust and moisture, long lasting capability, cover that could be assembled or disassembled only by tightening or loosening screw and flexible gasket that enables installing the cable by pressing and make difference with quick and safe cabling functions.

Surface mounted Palmiye series offers earthed and earthed UPS sockets with lid resistant to dust and water thanks to IP54 function. TV / Data socket options with surface mounted IP54 function and optional horizontal and vertical two-gang combinations depending on the application area enrich the options of users.
