## Panasonic LED Standard Lamps

Panasonic illuminates your home with its products that combine high technology, superior performance, safety and design. The LED lamps series provides light temperatures up to 2700K, 3000K, 4000K, 6500K with warm white, cool white, neutral white options, every point of living spaces, from kitchens to study rooms, meets with ideal quality lighting.

E14, E27, GU10 type led lamps from power energy offers high energy efficacy up to 109lm/W while creating alight and homey spaces with clean and panoramic angle thanks to it cutting edge technology.

Enlightening the world  
with **Panasonic safe and efficient lighting**

## Excellent LED Standart Lamps within gorgeous classic appearance

### Product Features;

- Uniform light distribution with 200° beam angle.
- Made in Türkiye production.

### Areas of application;

- Domestic applications
- General illumination

**Panasonic**

Affordable price, high performance, a true warrior.

While Torch lamps provide energy efficiency up to 131lm/W, they can easily be inserted instead of standard lamps thanks to classical E27 socket and in this way; they allow easy installation in retail and personal applications. Torch lamps offer more homogeneous lighting with four different power options of 18W, 23W, 35W, 45W and color temperatures of 3000K, 4000K, 6500K.

### Product Features:

- 18W-23W-35W-45W power options
- Long life up to 15000 hour with excellent luminosity
- 3000K/4000K/6000K color temperature options

Everything is in your control with the energy saving, LED Dimmable Lamps that allow you to adjust the lighting level.

### Product Features:

- Light brightness control
- 2700K/4000K/6500K colour temperature options
- Compatible with Dim Switches\* and KNX Automation Switches
- Complete solution as Panasonic LED Lamp +Dim Switch

\* Compatible with RC 400W Dimmers and Universal Dimmers.

## Panasonic LED Filament Lamps

*The derivation of light.*

Panasonic LED Filament Lamps with the options of clear and gold glass colors, offers a great retrofit solution. Have dramatic reduction in energy usage up to 118 lm/W and fascinating evolution in the quality of light. Gold filament lamp with its color temperature of 2000 Kelvin and clear filament lamp with its color temperature of 2700 Kelvin creates an ultra-warm, comfortable, decorative atmosphere.

Their retro style that match with conventional lamp design brings desired style into reality with its classic, candle, retro and globe models. Has a long life of up to 15.000 hours, and even light distribution with 360° illumination, creates ideal light for retail and commercial applications.

## Panasonic LED Tube G13

*Modern lighting that facilitates the transition to new technology.*

Panasonic LED Tube facilitates the transition from traditional technology to modern LED lighting products with its plug-and-play concept. It offers an environmentally friendly lighting solution with its long lifespan and energy-saving benefits.

LED TUBE G13

## Panasonic Remote Control RGB LED Lamp

*Very colorful, very stylish.*

The Panasonic Remote Control Lamp with color-changing, dimmable RGB-2700K light adds color and elegance to any environment.

## REMOTE CONTROL LED LAMP

Multi-colored,  
extremely stylish.

Panasonic Remote Control RGB Lamp with dimmable RGB-2700K light adds color and elegance to every environment..

### Product Features:

- 2700K+RGB color options
- Multi-colored and stylish
- Easy remote control
- 4 lighting modes ; Flash, Strobe, Fade and Smooth

## Panasonic Smart BT Wi-Fi RGB LED Lamp Series

*Very colorful, very smart.*

With the application-controlled dimmable RGB+White light from the Panasonic Smart Lamp Series, you can swiftly and effortlessly bring color and enjoyment to any environment.

Very colorful,  
very smart.

Panasonic Smart Lamp Series with dimmable RGB+White light add color and fun to every space with minimum effort thanks to its controllability over the application.

### Product Features:

- Connection via Wi-Fi and Bluetooth
- Compatibility with Circadian rhythm
- Voice Assistant programmable feature
- Control via Tuya, Amazon Alexa, Google Assistant
- 2700K~6500K + RGB

# Panasonic LED Backlit Panel

*Precise balance of light.*

## LED BACKLIT

It delivers a high efficacy value with 30.000h life time. Flush mounted directly against the ceiling, suitable undoubtedly for office, retail, education and hospitality with its different size of (dimensions) 600x600mm and 300x1200mm body options and accessories are available for different ceiling and installation types.

### Product Features:

- High efficacy.
- 2 different size options.
- 2 different color options.

## Panasonic LED Splash Proof Panasonic LED Splash Proof Sensor

*Professional lighting under harsh conditions.*

Panasonic LED Splash Proof is designed in an aesthetic and natural form to be suitable for industrial, commercial and residential environments. It is a good alternative to traditional fluorescent type luminaires due to its energy efficiency, superior life span with 25000hr and low maintenance cost. With Panasonic LED Splash Proof Sensor; security is no longer an issue due to its motion-sensitive sensors. Because of its durability to adverse situations, it offers you comfortable environments by supplying constant and uninterrupted light.

## LED SPLASH PROOF

4000K/6500K

0.9

25.000 Hour

Energy Class

CRI

Class

It can be integrated with the applications that need high luminous intensity. Panasonic Splash Proof reflects Panasonic quality with homogenous light distribution not straining eyes thanks to poly-carbon optic diffuser.

While it provides a wider area illumination by reducing eye dazzling with 36 Watt and 45 Watt power options and 4000K, 6500K color temperatures, it offers high energy efficiency up to 111lm/W. Panasonic Splash Proof is easily installed with 120 cm and 150 cm compact dimensions and always preferred in the projects with its IP65 protection class in indoor and outdoor environment where water and moisture widely exist.

### Product Features:

- 2 different lumen package and length option
- 4000K/6500K color options
- Easy Installation

The luminaire will light up if it detects any human or object movement. Induction range max to 6.5m.

The luminaire will enter a 60s delay if it does not detects any human or object movement after the leaving of the persons, while keep lighting. After the 60s delay, The luminaire will automatically turn off.

### Product Features:

- Motion detecting Radar Sensor
- Detection area with 3 m high installation and a diameter of 6,5 m
- Closing 60 seconds later when no motion is detected
- 2 different lumen and length options
- 4000K/6500K color temperatures

## Panasonic LED Flood Light Panasonic LED Flood Light Sensor

*Quality, security, design...*

Panasonic offers durable and high quality lighting solutions for outdoor projects such as hotel car parks, gardens, etc. with a wide range of attractive LED Flood Light products from 10 to 200 Watt. Panasonic LED Flood Light with Sensor offers a universal and compact lighting with high lumen output levels and outstanding efficiency. They meet the expectations of safety as well as energy efficiency thanks to their motion and daylight-sensitive sensors.
